Abstract

ICMADS'27 welcomes all original submissions electronically via *Microsoft CMT* system. All authors need to submit their abstracts (min 250 words, **no more than one page** including references) within the deadline making sure that all author details are complete. The corresponding and the presenting authors must be clearly identified when doing so. All abstracts must be prepared according to this template. Accepted and presented abstracts will appear in the *book of abstracts* immediate after the conference.

Page should be in A4 (210 X 297 mm) size with margins of 1 inch or 2.5 cm on all edges. Font used must be "Arial" and its size must be 12 pt **bold** for title. Font used must be "Arial" and its size must be 11 pt for regular text with 1.15 line spacing. The text page should include the authors' names, addresses, affiliations and the email address for the corresponding author ("Arial", *italic*, 10 pt). The references should be included at the end in APA style and all references must be cited in the text (or vice versa). The length must not exceed one page including the list of references. Any source of support should be provided above the list of references. Please do not add any header, footer or page number.

Keywords: Keyword 1, keyword 2, keyword 3

Acknowledgements

Acknowledgements may be made to those individuals or institutions not mentioned elsewhere in the paper that made an important contribution.

References

Reference citations in the text should be identified by numbers in square brackets "[]" given in an increasing order starting from "1". All references must be complete and accurate. Please ensure that every reference cited in the text is also present in the reference list (and vice versa).

Online citations should include date of access. Font style should be 10 pt Arial. Examples are:

- [1] Naik, P. A., Yavuz, M., Qureshi, S., Zu, J., & Townley, S. (2020). Modeling and analysis of COVID-19 epidemics with treatment in fractional derivatives using real data from Pakistan. *The European Physical Journal Plus*, 135, 1-42.
